

Remark: sorry that the formal resume is not available, but you can get it by contacting me, thanks!

# Qi Zhang | 张奇

I am a senior year undergraduate student in computational mathematics at USTC, from School of the Gifted Young. I was fortunated to work closely with [Michael Kazhdan](#) from JHU in the summer of 2022. Before that, I was a student in the Hua-loo Keng Talent Program in pure mathematics, at USTC , especially in geometry.

My wechat ID is [qizhang\\_001](#) , always pleasure for new friends!!!

## News

- ☑ New days, new awesome website!!!
- ☑ Will upload more once first publication comes!!!

## Research

I am totally interested in (3d) computer vision 🧐 and graphics 🍵.

## Experiences

Hugging Face

### **Huggingfaces.co Community.**

2023.02 - Present.

Community volunteer for localization of documents.

MATH3009<sub>USTC</sub>

### **Differential Geometry(100+ students).**

2022 fall, teaching asistant.

With Prof. Yongbin Zhang, course [webpage](#).

### **University of Science and Technology of China, Hefei, China.**

2019.09 - 2023.06 (with distinction).

90.6 / 100.

School of the Gifted Young.

**B.S. in Informational & Computational Science (math).**

## Miscellaneous

I am hacking space cowboy 🤠 of open source culture. I use archlinux 🏠 in my free time with some fancy features: i3wm, ranger, neovim and so on, you can checkout my [blog](#) (building).

Away from all those, I enjoy short marathon 🏃, and also a super fan of pure music 🎧 : Hans Zimmer, Joe Haisashi, the Piano Guys and Yoyo Ma.

Nice template stolen from [Yijia Weng](#) and [Jon Barron](#).

Thanks for stopping by ;)
